
Subject: Kansas County Designation

Effective Date: October 1, 2015

Revised from: October 1, 2007

Policy: Rural and Urban designations for counties are used to establish minimum stocking requirements for authorized WIC vendors. The Kansas WIC program sorts authorized WIC vendors into two (2) groups based on county population information collected by the Kansas Office of Health Assessment who produces the *Annual Summary of Kansas Vital Statistics*.

The two groups are separated with the following criteria:

- Rural designation includes:
 - counties with less than 19.9 persons per square mile
- Urban designation includes:
 - counties with more than 20.0 persons per square mile
